FRONT FACING, THEATER-STYLE SEVEN PASSENGER SEATING

PERSONAL SURROUND-SOUND STEREO HEADSETS WITH VOICE ACTIVATED MICROPHONES

## WHY FLY MAVERICK?

- Maverick Helicopters has the top safety record of any tourism-based aviation company in the world.
- Maverick Helicopters has received the Federal Aviation Administration's (FAA) distinguished Diamond Award.
- Guaranteed to fly in an ECO-Star helicopter, the only helicopter designed and engineered specifically for air tourism.
- To date, Maverick has invested over \$100 million in Quiet Technology helicopters, making it the largest and youngest fleet of ECO-Stars in the world.
- Employ the most highly trained commercial pilots in the industry with an average of three times the experience.
- All Maverick Helicopters flights depart from the Las Vegas Boulevard terminal, located on the Las Vegas Strip, just seconds from the resort corridor.

## AIRBUS

The ECO-Star helicopter (H130 & EC130), made by Airbus, is the safest and most comfortable tourism-based helicopter worldwide.

### SEATING & WINDOWS

The ECO-Star features a 23% larger cabin than the common A-Star model. Wraparound windows throughout provide superior visibility for guests aboard the helicopter.

### TAIL SECTION

The ECO-Star's low noise Fenestron Tail Rotor reduces outside noise by 50%; enhancing the customer experience and limiting the effects on nature's habitats with a low carbon footprint.
